IN RE: QUANTUMSHIFT COMMUNICATIONS, INC., f/k/a MVX.COM COMMUNICATIONS, INC.	DOCKET NOS. TF-01-169 TCU-99-30
	CERTIFICATE NO. 0236

CERTIFICATE

(Issued July 5, 2001)

On June 7, 2001, QuantumShift Communications, Inc., f/k/a MVX.COM Communications, Inc. (QuantumShift), filed an initial proposed tariff containing the terms, conditions, and rates for providing local exchange service in Iowa. The proposed tariff was identified as Docket No. TF-01-169. QuantumShift included in the proposed tariff a provision for 2-PIC dialing parity. In an order issued on November 19, 1999, in Docket No. TCU-99-30, the Utilities Board (Board) stated that QuantumShift would be issued a certificate of convenience and necessity to provide local exchange service when it had approved tariffs and had filed a statement adopting 2-PIC dialing parity.

By order issued concurrently with this certificate the Board has approved the proposed tariff that contains the terms, conditions, and rates for providing local exchange service. Since QuantumShift will have an approved tariff to provide local

exchange service, the Board will issue Certificate No. 0236 authorizing QuantumShift to provide local exchange service in the Qwest exchanges.

IT IS THEREFORE ORDERED:

This certificate of public convenience and necessity, issued pursuant to Iowa Code § 476.29(1) (2001), authorizes QuantumShift Communications, Inc., f/k/a MVX.COM Communications, Inc., to furnish local telephone service in the exchanges as shown by its tariff as currently and subsequently approved.
